IMPERX HD-SDI Mini-PCle is a professional level PCI Express video capture card that enables users to view and store in real time mega pixel video images from any standard HD-SDI video source onto desktop PC computers. IMPERX HD-SDI Mini-PCle is capable of capturing single or multiple frames and standard AVI clips from any SD or HD-SDI compliant video source. Each captured frame can be stamped with a user message along with the date and time of capture. A full software suite that includes drivers, C/C++, SDK, and an application program is provided with each IMPERX HD-SDI Mini-PCle (VCE-HDmPCle01) card.

Note: The physical dimensions of this card are larger than a standard mini-PCle card. As such, it is not compliant with the PCI Express® Mini Card Electromechanical Specification.
